EDUCATIONAL MEASUREMENT • VALIDITY • PSYCHOMETRICS

Sergio Araneda, Ph.D.

sondaxius@gmail.com | github.com/sndxs | Updated October 2026

Ph.D., Research, Educational Measurement, and Psychometrics
University of Massachusetts Amherst 2019 – 2022

The Research, Educational Measurement, and Psychometrics (REMP) program is a research-focused doctoral program in the College of Education, combining psychometric theory (classical test theory, item response theory, generalizability theory) with hands-on assessment work through the Center for Educational Assessment. It's one of the leading doctoral programs in educational measurement and psychometrics in the United States.

Mathematical Civil Engineer
Universidad de Chile 2005 – 2013

A mathematical civil engineer has 2 years in a common program with the rest of other engineering programs and 4 years of specific training in modern mathematics: Functional analysis, Measure theory, Partial Differential Equations, Stochastic processes, Optimization (linear, non-linear, discrete, optimal control), Discrete Mathematics, Numerical Methods, Information theory, and Statistics. It's a strong program, one of the most prestigious programs in Applied Math in Latin America.

CAREER

Work Experience

Research Scientist, Caveon — July 2023 – Present (3Y), part-time since July 2026
Remote, done from New York City, NY, US
General work on research topics of relevance for Caveon, including Randomly Parallel Testing and the use of Large Language Models (LLM) in combination with Caveon's technologies like SmartItems™. Participation in conferences and Collaboration with members of the company doing Research and preparing papers.

Associate Psychometrician, College Board — October 2022 – April 2023 (7M)
Remote, done from New York City, NY, US
I participated in the work of the PsyTech Team in the Psychometrics division at College Board. Part of my duties corresponded to Research related to Item Parameter Drift and Automatic Essay Scoring for the SAT Essay test.

Research Assistant, Departamento de Medición y Registro Educacional (DEMRE) — August 2017 – December 2018 (1Y 4M)
In-person Santiago, Chile; and Remote, done from Jersey City, NJ, US
DEMRE is a department under Universidad de Chile that specializes in educational measurement. It is responsible for designing the Prueba de Selección Universitaria (PSU), the exam used for college admissions in Chile. I worked as a research assistant in a project evaluating the use of one score named "ranking de notas" in the Chilean admission system.

EARLY CAREER

Internships

Caveon — March 2022 – August 2022
Remote, done from Amherst, MA, US
I worked constructing "Smart-items," a technology developed by the company for Automatic Item Generation. I used my programming skills to create Smart-items of different types. I used Natural Language Processing as well to generate Correct-Incorrect statements automatically from a text.

ETS AI Labs — June 2021 – August 2021
Remote, done from Amherst, MA, US
I worked as a summer intern in one of the projects of the AI labs at ETS, an app named "Authentic," made to help early career professionals to improve their interview skills. My role in the agile team was to provide a logic for feedback generation for audio cues in an interview, specifically using filler words and effective uses of pauses.

BEFORE MEASUREMENT

Other Previous Experiences in Finances

Datamart Murex Consultant, CPQi — August 2018 – July 2019
In-person Jersey City, NJ, US
Working as an external consultant for RBC (Royal Bank of Canada) in a Murex implementation project for Rates and their internal reports. The work required intensive SQL programming and proficiency in Murex, a software used in the finance industry for derivatives management.

Back-Office Functional Consultant, Murex — September 2014 – February 2017
In-person Santiago, Chile
Murex is a French software company that created the software MX.3, a platform financial institutions use to support the operation of financial products such as derivatives. My role on this job was to support clients in the Andean region on the functionalities related to the Back-office MX.3 provides. Most of my work was related to Post-trade workflow, Accounting, Confirmation documents, Settlement, Netting, pre-trade, and reporting (for Back-Office purposes).

Quantitative Analyst, Vision advisors — September 2013 – August 2014
In-person Santiago, Chile
I worked as an analyst doing reports for institutional clients of our office, mostly related to investment recommendations and regulatory requirements.

TOOLKIT

Technical Skills & Languages

Python	Working with Python since 2013. Machine learning → Pytorch.
R	Working with R since 2018.
Other scripting languages	SQL, MATLAB, Java, XML, XSL, UNIX, Stata, Git.
Psychometric & Statistical Software	FlexMIRT, MPlus.
Optimization Software	Gurobi, Cplex.

English	Advanced reading level, Advanced oral level, Advanced writing level. TOEFL iBT score 102/120
French	Advanced reading level, Intermediate oral level, Intermediate writing level.
Spanish	Native Language.

EDUCATION & TEACHING

Teaching Experience

First Year Seminar (FYS) Principles of game design applied in Education — Fall 2021
College of Education, University of Massachusetts Amherst
This course covers core principles of game design, focusing on best practices and methodologies for creating engaging and effective games. Emphasis is placed on the application of game design concepts in educational contexts, enabling students to explore how game mechanics and design principles can enhance learning experiences. I created this course.

Probability and Statistics — Fall 2012
Facultad de Ciencias Físicas y Matemáticas, Universidad de Chile
This course covers introductory topics to probability, and some initial topics related to statistics.

Mathematical Reasoning in Elementary School — Fall 2011
Facultad de Ciencias Físicas y Matemáticas, Universidad de Chile
This course covers an introduction to the concept of mathematical reasoning and its applications in the classroom for K-12 math teaching.

Linear Algebra — Fall 2008
Facultad de Ciencias Físicas y Matemáticas, Universidad de Chile
This course covers an introduction to linear algebra for engineering students.

SPEAKING & PARTICIPATION

Presentations in Conferences

ORGANIZED SESSIONS

Araneda, S. (Chair), Oliveri, M. E., Whitcomb, D., Wine, M., Hoffman, A., Beiting-Parrish, M., & McCaffrey, D. (Discussant). (2026, October 6). *Validating AI in educational testing: Challenges and future directions* [Coordinated paper session]. AIME Conference (AIME-Con), National Council on Measurement in Education (NCME), Pittsburgh, PA, United States.

Araneda, S. (Chair), Ercikan, K., Solano-Flores, G., Dept, S., Gonthier, I., & Sireci, S. G. (Discussant). (2026, July 2). *Emerging challenges in the use of artificial intelligence in educational testing & certification* [Symposium]. International Test Commission Conference 2026, Auckland, New Zealand.

Araneda, S. (Chair), Padilla, J.-L., Benítez, I., Suárez-Álvarez, J., Solano-Flores, G., Ruiz-Primo, M. A., & Sireci, S. G. (Discussant). (2026, July 1). *Hispanic-American perspectives on the concept of validity* [Symposium]. International Test Commission Conference 2026, Auckland, New Zealand.

Araneda, S. (Organizer), Toton, S., Foster, C., Marder, A., & Foster, D. (Discussant). (2025, November 4). *New AI-driven threats to test security: Understanding risks and building defenses* [Organized conference session]. Conference on Test Security (COTS 2025), University of Massachusetts Amherst, Amherst, MA, United States.

Araneda, S. (Organizer), Foster, C., McCaffrey, D., Hoffman, A., Beiting-Parrish, M., & von Davier, M. (Discussant). (2025, October 28). *Validating AI in educational testing: Challenges and future directions* [Organized session]. AIME Conference (AIME-Con), National Council on Measurement in Education (NCME), Pittsburgh, PA, United States.

Araneda, S. (Organizer), Fremer, J., Ladson-Billings, G., Sireci, S. (2025, April) *One Hundred Years of Criticisms Against Standardized Testing* [Organized Discussion]. National Council on Measurement in Education annual meeting, Denver. Link to Slides

Araneda, S. (Chair), Torres-Iribarra, D., Alarcón-Bustamante, E., Gonzalez-Wegener, X., Gándara, F., Fremer, J. (Discussant). (2024, July) *College Admission in Chile: Inequity, Social Unrest, and More Testing* [Symposium]. International Testing Commission bi-annual meeting, Granada.

Araneda, S. (Organizer), Sarac, M., Beiting-Parrish, M., Valdivia Medinaceli, M. B., Huff, S., Huff, K. (Discussant). (2023, April) *GSIC Standards Study Group: Recommendations from Graduate Students for Its New Version* [Paper Session]. National Council on Measurement in Education annual meeting, Chicago.

PANEL PARTICIPATION

Araneda, S., Olson, J., Sireci, S., & Drane, W. (2025, November 4). *Latest research and development in using generative AI for state assessment programs: Cutting edge R&D and applications for K–12 testing* [Conference panel]. Conference on Test Security (COTS 2025), University of Massachusetts Amherst, Amherst, MA, United States.

Drane, W., Quesen, S., Araneda, S., Olson, J. (2024, October) *Use of Generative AI in Secure Item Development for State Assessment Programs: Recommendations for Future Implementation by States* [Panel Presentation]. Conference on Test Security, Salt Lake City. Link to Video

Chakraborty, R., & Jackson, J. A. (Chairs). (2023, April). *Navigating job opportunities and preparing for*

job markets: Let's get ready together [Panel discussion]. Graduate Student Council Division D Fireside Chat, AERA 2023 Annual Meeting, InterContinental Chicago Magnificent Mile, Chicago, IL. Panelists: Boyd, B., Van Orman, D. S. J., Riley-Lepo, E., Araneda, S., & Choiseul-Praslin, B. D.

TRAINING SESSIONS

Araneda, S., Foster, C., & Weaver, S. (2025, October 27). *Using generative AI for item construction: State-of-the-art and practical lessons* [Training session]. AIME Conference (AIME-Con), National Council on Measurement in Education (NCME), Pittsburgh, PA, United States.

INDIVIDUAL PRESENTATIONS

Araneda, S. (2026, October 6). *Tests as socio-technical artifacts: A taxonomy for invalidity hypotheses* [Conference presentation]. AIME Conference (AIME-Con), National Council on Measurement in Education (NCME), Pittsburgh, PA, United States.

Araneda, S. (2026, July 2). *The Multiple Crises of Validity Theory in the Age of AI* [Conference presentation]. International Test Commission Conference 2026, Auckland, New Zealand. Link to Slides

Araneda, S. (2026, July 1). *Making the case for an experiential approach to test design and validation* [Conference presentation]. International Test Commission Conference 2026, Auckland, New Zealand. Link to Slides

Araneda, S. (2026, July 1). *Randomly parallel tests as a test security and measurement strategy: Theory, evidence, and practical implications* [Conference presentation]. International Test Commission Conference 2026, Auckland, New Zealand. Link to Slides

Araneda, S. (2026, April). *Factor analysis in randomly parallel tests: Limitations and emerging solutions* [Conference presentation]. National Council on Measurement in Education Annual Meeting (NCME 2026), Los Angeles, CA, United States. Link to Video

Araneda, S., & Foster, D. (2025, November 5). *A phenomenological framework for stakes definition in educational testing* [Virtual conference presentation]. Conference on Test Security (COTS 2025), University of Massachusetts Amherst, Amherst, MA, United States.

Araneda, S. (2025, November 4). *There are many ways to skin a CAT: Exploring alternative ways for doing adaptive testing* [Conference presentation]. Conference on Test Security (COTS 2025), University of Massachusetts Amherst, Amherst, MA, United States.

Marder, A., & Araneda, S. (2025, November 4). *Validating Observer for online test security: Preliminary evidence on detecting examinee use of ChatGPT* [Conference presentation]. Conference on Test Security (COTS 2025), University of Massachusetts Amherst, Amherst, MA, United States.

Araneda, S., Lee, W.-C., & Kim, S. (2025, October 29). *Equating forms using synthetic data via LLM respondents and DCM models* [Conference presentation]. AIME Conference (AIME-Con), National Council on Measurement in Education (NCME), Pittsburgh, PA, United States. Link to Slides

Araneda, S. (2025, October 29). *Tests as socio-technical artifacts: First thoughts on its implications for validity theory* [Conference presentation]. AIME Conference (AIME-Con), National Council on Measurement in Education (NCME), Pittsburgh, PA, United States. Link to Video Link to Slides

Araneda, S. (2025, October 28). *Function ascription, use-plans and how to validate AI tools used in educational testing* [Conference presentation]. AIME Conference (AIME-Con), National Council on Measurement in Education (NCME), Pittsburgh, PA, United States. Link to Video Link to Slides

Araneda, S., & Foster, C. (2025, October 23). *Assessing pre-exposure risks of LLM-generated item pools* [Paper presentation]. New England Educational Research Association (NERA) Annual Conference, Trumbull, CT, United States. Link to Video Link to Slides

Araneda, S. (2025, octubre 10). *Repensando la validez de las pruebas desde la filosofía de la tecnología: Una perspectiva de artefactos socio-técnicos* [Presentación en seminario virtual]. Segundo Seminario FEVED: Evaluación Educacional Hoy: Entre la Evidencia, la Tecnología y el Aula, Foro de Evaluación Educacional de Chile (FEVED).

Araneda, S., Marder, A., Foster, C., Foster, D. (2025, April) *Reliability in Randomly Parallel Tests: A Practical Guide* [Presentation]. National Council on Measurement in Education annual meeting, Denver. Link to Slides

ORGANIZED ONLINE CONFERENCES

Labarca, L., Zunino, V., & Araneda, S. (Organizers). (2025, October 10). Segundo Seminario FEVED: Evaluación educacional hoy: Entre la evidencia, la tecnología y el aula [Virtual conference]. FEVED. Retrieved from https://sites.google.com/view/feved/seminarios-feved/segundo-seminario?authuser=0

ORGANIZED SINGLE WEBINARS

Araneda, S., Gándara, F., Santelices, V., Torres-Iribarra, D., Zunino, V. (2021, May) *Pruebas Estandarizadas y Sistemas de evaluación de aprendizajes en Chile durante y post pandemia*. [Virtual] Nexos Chile-USA & FEVED. https://www.youtube.com/watch?v=4rYXu75fn-k

ORGANIZED WEBINAR SERIES

Webinars Validez — Fall 2024 – Spring 2025
Foro Chileno de Profesionales en Evaluacion Educacional FEVED
This series covered interviews with different Spanish-speaker experts in Educational Assessment about the concept of Validity. The series is published on my personal Youtube Channel https://www.youtube.com/@elsheshin. Full list of episodes: sndxs.github.io/personalwebsite/#webinars-validez

NCME GSIC Standards Study Group — Fall 2021, Spring 2022 and Summer 2022
Graduate Student Issues Committee at NCME
This series covered discussion sessions between students and Q&A with experts about each of the chapters in the Standards for Educational and Psychological Measurement. This series can be found at the NCME website and youtube channel https://www.ncme.org/students/student-programs/standards-study-group. Full list of sessions: sndxs.github.io/personalwebsite/#standards-study-group

Entrevistas FEVED — Spring 2022
Foro Chileno de Profesionales en Evaluacion Educacional FEVED
This series covered interviews with different experts in Educational Assessment in Chile. The series is published on the FEVED Youtube Channel https://www.youtube.com/@feved-forochilenoevaluacion. Full list of episodes: sndxs.github.io/personalwebsite/#entrevistas-feved

SERVICE

Volunteer Work and Public Engagement

Committee member, Website Committee
May 2025 – April 2026
I am a member of the Website Committee at NCME. We helped on the transition to the new website.

Vice-coordinator, FEVED Foro chileno de profesionales en evaluación educacional (Chilean Forum of professionals in educational assessment).
March 2025 – February 2026
Working together with Loretta Labarca in the coordination of FEVED, an advocacy group of Measurement and Assessment Professionals in Chile for best practices in Educational Testing. More info (in Spanish) www.feved.cl

Committee member, Diversity Issues in Testing Committee (CODIT)
May 2024 – April 2025
I was a member of the Diversity Issues in Testing Committee (CODIT) at NCME. I served as a reviewer of some assignments specific of the committee.

Chair, NCME Graduate Student Issues Committee (GSIC).
July 2021 – May 2023
I was one of the chairs of the NCME Graduate student issues committee (GSIC). This committee is in charge of raising the concerns and voices of graduate students to the NCME board and organizing social events for the graduate students. I led different types of activities, with great evaluation from the NCME board during my term as a Senior Chair in the annual conference in Chicago (2023).

Coordinator, NCME-GSIC Standards study group & Statement New Edition of the Standards
October 2021 – April 2023
I led a study group focusing on the current version of the Standards, doing a series of discussions among students and Q&A sessions with experts. In the second stage of the study group, we wrote a statement about the new Edition of the Standards with our position as a generation. Find more info about the Standards Study Group here.

Coordinator, FEVED Foro chileno de profesionales en evaluación educacional (Chilean Forum of professionals in educational assessment).
September 2020 – August 2021
First coordinator of the group FEVED.
